GOING AFTER OIL AT GREEN RIVER

Col. B. S. Tasker Instituting Something Novel In the Way of Drilling In This Western Oil Country Field.

RALT LAKE CITY, July 26.—Serving to said innovations will be instituted in the minuner of drilling in the crew. River oil fields, according to the Jestott, who has been engaged as chief driller for the British-American Petroleum company. Scott has had considerable experience in drilling wells in Eastern and Westlem oil fields and is a well known oil and gas man. In company with Nat Levi, general manager of the company and who is an oil California operator, he is in this city for a few days and will shortly return to the field to finish the drilling of the field ways. "The British-American company has now drilled to a depth of shout one thousand three hundred feet. Root in speaking of the field says: "The British-American company in the No. I well had a showing of all and then later started the No. 2 well. The No. 1 well is about five hundred and there had seen to the public is about eight milts west or No. 1 and about twelve miles southeast of the link well about three thousand feet to get into the proper formation. At a depth of shout lifteen hundred feet to get into the proper formation. At a depth of about lifteen hundred feet to get into the proper formation. At a depth of about lifteen hundred feet the well should strike the oil shales which are about one thousand feet the well should strike the oil that results should be obtained in this well. We are now thanging the machinery at the well and as soon as the changes are completed the work of drilling will be memeliatedly takes up be are

and feet thick. We have evidence smooth in the field to lead to the belief that results should be obtained in this well. We are now changing the mackinery at the well and as soon as the changes are completed the work of drilling will be immediately taken up. We are changing from a drilling will be immediately taken up. We are changing from a drilling in to a California standard natchine. This company controls about ten thousand across of ground and will in all probability drill other wells later. The shales are suturated with oil and it is the intention of the company to give these shale heds a thorough prospecting.

"Other uperators are also active in the field. Colone B. S. Tasker of Philosolphia is instituting something about eighty thousand dollars on the woat from the western tides. After uperators are like from Vernal. Vernal the wootern fields. After uperators are like from Vernal. Vernal the wootern fields. After uperators are like from Vernal. Vernal the wootern fields. GLAD TO GET AWAY

Jimmy Resgns Tells Loyel Story

The statement that Chalky Gar-main would have ancounted to Jim-my Reagan in their boin at Price recently had not the former shamp broken his hand, has brought forth a storm of protest from the "blood-ed guys" of the south, who are all-ing to put up all of five hundred dothers as a bet on "the local favor-ite" if a match can be arranged for Labor Day, says Bunday's Heraid-Republican.

Labor Day, says Sunday's Reraid-Republican.

There is not the slightest doubt that Reagan injured his head and bodly, too. Whether it was bruken is a question the Price sportmedics antherities can these on for some time. A bet of five kentired dollars would be like stealing money for Beausin if his head is in not the slightest doubt but he will be tickled to get the match. Jiminy, Rowever, was raighty glad to get out of Price, he stated, as he declared he did not like the prominent buiges in some of the ringside speciators his pockets, who domanded that Referes birdy Downing give "our boy" (Germain a fair deal. The only chame that there will not be a return match may be Reagan's refuctance to most Germain in Price, Any other place, without doubt, would suit them.

Germaine Gets Into Price.

"Jimmy" Heagan, writes the spoing editor of Salt Lake's Telegra ing editor of shalt Lake's Telegrams. There has been so much talk about my fight with Reagan here July 24th that I would like to have row give the fans my side of it in your page. I was in great shape and I handed two punches to his one, the may have broken his hand, but believe me, he also broke his heart after the fifteenth round, because he had all his mustey her that he could knock no out before them. The only reason I did not knock him out is that I wanted to protect my backers, who her that I would stay twenty rounds. I jumped out of the ring unassisted after the bout. If he thinks he can still beau me I will fight him again, sinner take all, if he will make 122 pounds riugide. He citalus to be a fasther weight, so let him make it. I
